ORIENTATION PROGRAMME 2019-20

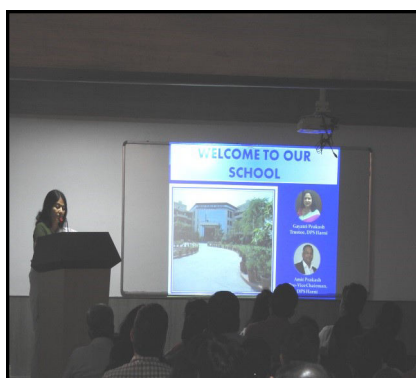

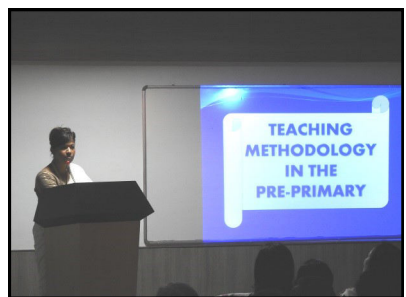

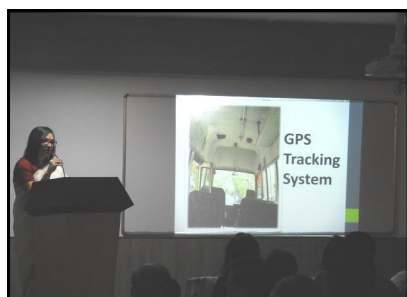

A JOB WELL BEGUN IS A JOB HALF DONE.

The orientation Programme for session 2019-20 was conducted on 20 March 2019. The parents were briefed about the rules and regulations of the school. Later, the teachers gave an overview of the various subjects and not to forget the co-scholastic activities which gave them an assurance that the curriculum involves self-directed, hands-on learning activities which not only will give vent to their creative talents and energies but also help in all-round development of the child.

The orientation programme proved to be a sincere effort made by the school in educating the parents to look after and guide their children in a proper manner. It also helped in evolving a common teaching strategy and helped the parents in identifying suitable follow up methods to reinforce the learning process of their children, at home.

GRADUATION CEREMONMY

FOR CLASS PREPARATORY & CLASS V 2018-19

Graduation Ceremony for Preparatory was conducted on 14 March & for class V on 18 March 2019.

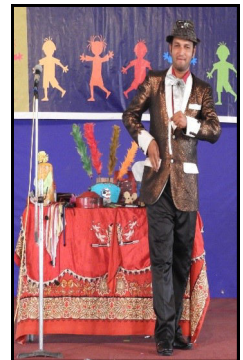

Graduations can be seen as a coming of age, a sort of official way to recognize when a person steps into the next stage of life, and graduates, you are stepping into a new stage.

To the young children seated in the room listening to the graduation speech - we are immeasurably proud of each and everyone of you.

Our advise is to continue soaring, continue boldly stepping forward, continue marching towards the beat of your drum and may the year that lies ahead be as phenomenal as your graduating year at Delhi Public School Harni.

FOUNDATION DAY

PRIMARY

We celebrate Foundation Day on 24th April of each year. Foundation Day is traditionally a very important day in the school calendar when members of the school community – students and staff – meet to commemorate those who founded the school and who have bequeathed their vision and resources to its development. An atmosphere of celebration is filled in the School when the students and teachers gathered to celebrate the Foundation Day. This day celebrates our past, helps us reorient our direction and enables us to foresee brighter prospects for the future of the school.

SENSITIZATION TOWARDS “ MY VOTE—MY RIGHT ”

ASSEMBLY “ KNOWING MY NATION ”

PRE - PRIMARY ACTIVITIES

Day with its glare of curiosity puts the stars to flight.

It is a great delight for us to inform you all that the first Academic month was very rewarding. The month began with innocent sobs of the little toddlers who joined the school for the first time. As the first week passed by the tears turned into smiles and chuckles.

The month of April marks the commencement of the season summer. Various activities were planned keeping in mind the rising temperature. Efforts were made to keep children cool and comfortable.

The Nursery children revised alphabets and numbers learnt in previous class. Along with this they also exhibited their hidden flair for art and craft. The Preparatory children enhanced their writing skills and their knowledge. They wrote the letters and numbers confidently without help.

EarthDay

Our planet Earth is very beautiful and life-giving. It is the responsibility of every human being to take care of its environment. On the occasion of Earth Day, the students of Class I and Pre-Primary were sensitized towards saving Our Mother Earth.

The children were enlightened about the role they can play in preservation of our environment. The students were acquainted about watering the plants and avoid plucking leaves and flowers. Further they learnt about how to dispose different types of wastes. The teacher explained the 3R's - Reuse, Recycle and Reduce. The children were engaged in various activities to facilitate their learning. The children not only watered the plants in the school garden but also learnt about the different types of drip irrigation that can be done easily at home. It is very important to instill the value of preservation of our environment, in our future generation. Hence, we must express our gratitude to Mother Earth by taking care of it; by protecting it and by making it a healthier and greener place to live.

Wishing you and your family **HAPPY EARTH DAY !!!**
