FIELD TRIP TO THE SUPERMARKET

Field trips play an important role in learning. They link the classroom experience with the outside world and in doing so they significantly improve the process of learning, and also give both the learners and educator valued practical experience.

The children saw a wide variety of food and goods which help us to follow healthy habits on a day to day basis.

The trip was a success as the children exhibited high level of enthusiasm and at the same time followed the essential agreements, like walking in a line, listening to their teacher and even greeting people. It was an enriching experience that helped them enhance their social skills as well.
